## SSP Transition and Retirement Overview

Presenter Mike McGuyer

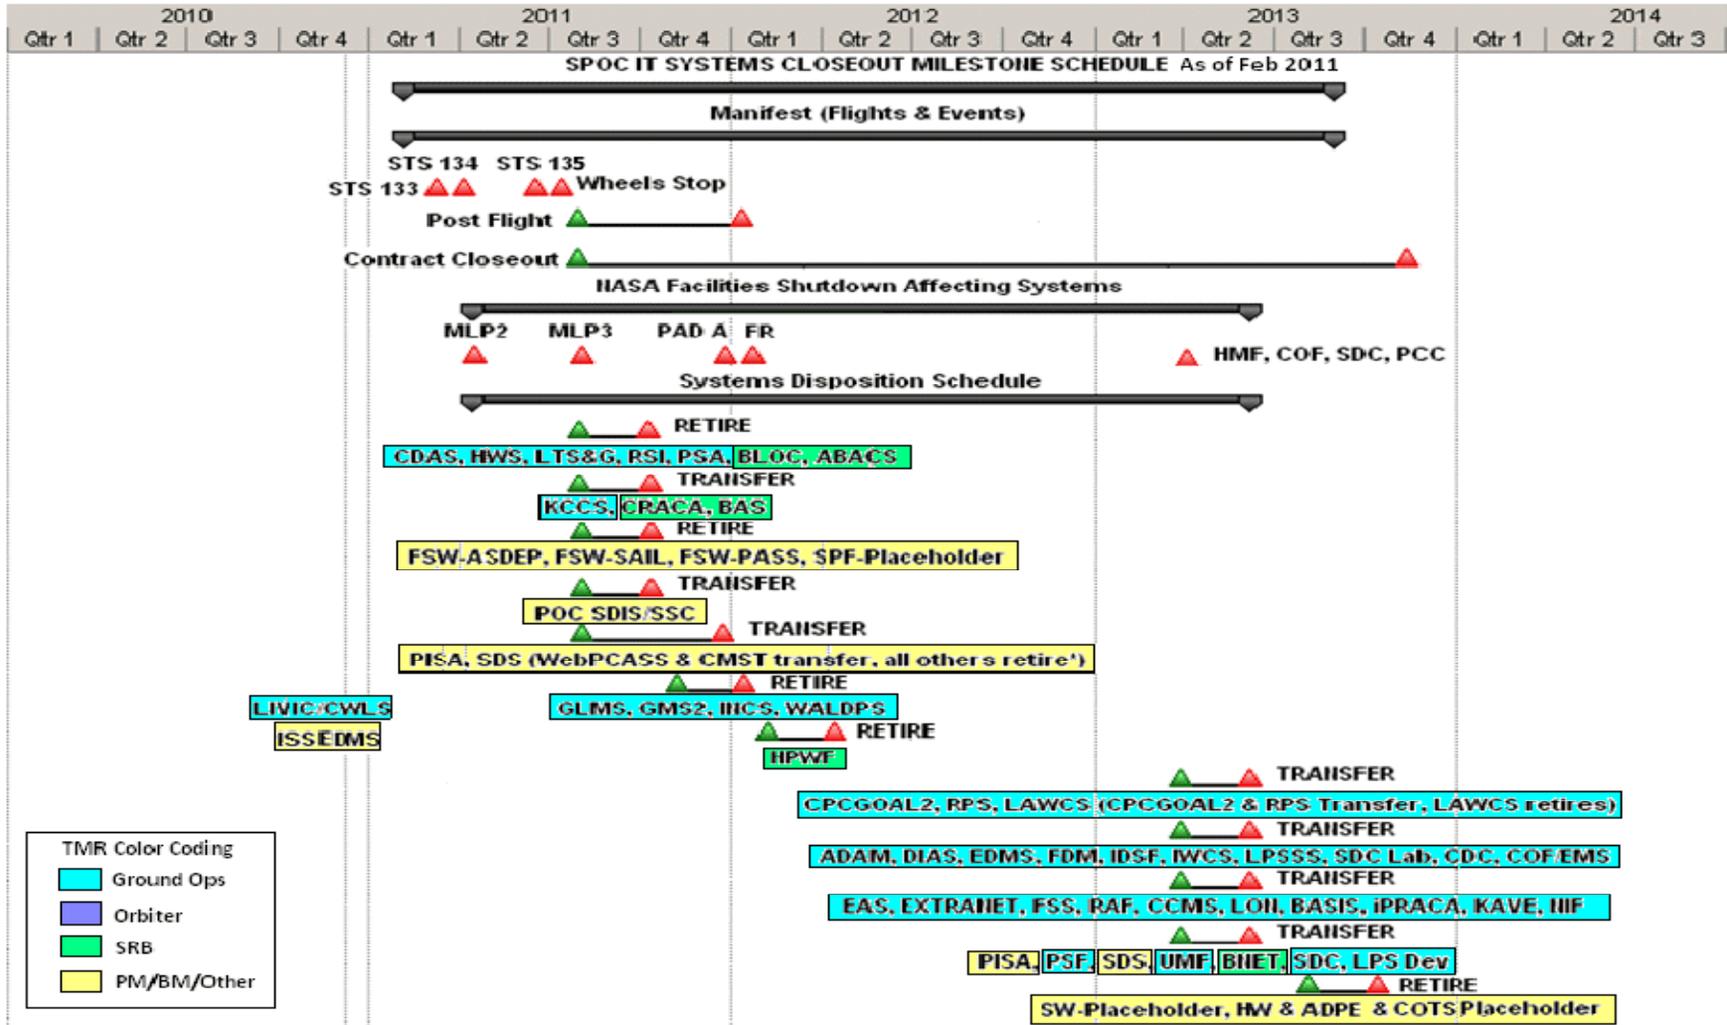

Date March 30, 2011

Page 3

- SSP goal: fund services only as long as they are required
- No one is surprised when circuits are cut off
- T&R is a 2 year process: FY12 & 13
- Schedule is driven by Last Need Events
- Some T&R actions may start before FY12
- NISN's 90-day circuit turn-off lead time is understood
- Outreach to affected parties is crucial to avoid unexpected loss of service
