

C-band Communications Contingency Procedure Splinter Session

03/31/11

**James A. Bangerter
GSFC/NASA/HSF ND**

Meeting

- **Purpose**
 - Review a DRAFT C-band Visiting Vehicle (VV) contingency procedure

- **Discussion**
 - Due to budget pressures, C-band support to be reduced for VV nominal support
 - Plan is to phase out current Soyuz support by 27S(May 2011)
 - Other VV demo and first flights will continue to be supported
 - Will review C-band requirements periodically with ISS to identify reductions
 - Procedure review
 - White Sands Missile Range (WSMR) eliminated
 - Flight Dynamics Facility (FDF) added

Meeting

-
- **Discussion (continued)**
 - **Procedure review (continued)**
 - Will verify phone numbers and Points-of-contact (POC)
 - Will insert site nominal duty times (GMT)
 - Will need to add process to identify sites to be called up
 - **Action item**
 - **One action item assigned to determine if the sites can use the low-speed 46 character data**
 - **Issue/Concern**
 - **Will need to identify required C-band support service (circuits ,etc.) so they are not deleted post Shuttle**
